

Knox County Park District Scavenger Hike

A tree with very rough bark. Can you tell what kind it is?	A seed that sticks to your clothing.	Five different shaped leaves.
A rock with more than one color.	A water source for an animal.	A tree that is no longer alive.
Something that feels smooth.	Something that feels rough.	A hiding place for an animal.
Something that can be food for an animal.	A cloud. What does it look like?	A flower growing.
A bird. Is it flying or looking for food?	A squirrel. What is it doing?	Find something that is living.
