

Nature Program

Garlic Mustard Round-up
Saturday, May 20 – 10 a.m.
Wolf Run Park Shelter
17621 Yauger Rd. Mount Vernon 43050

Join Volunteers Janet Chandler and Terri Heironimus for this training/orientation session to removing garlic mustard. The one-hour introduction to garlic mustard will cover how to recognize it, how it adversely affects other plants, and best practices for removal. The session is followed by walking to a close-by location and getting some hands-on practice while removing garlic mustard!
