

## Wildflower Walks

**Saturday, April 15 – 10 a.m.**

**Honey Run Waterfall Park**

**10865 Hazel Dell Rd. Howard 43028**

Join Volunteers Susan Guttormsen and Terri Heironimus for a leisurely woods walk at the falls to look for early spring ephemerals. These delicate and beautiful wildflowers have a very narrow window in which to grow, flower, pollinated and produce seeds before tree leaf-out. Learn a bit about spring wildflower ecology and their value to the overall forest ecosystem. Dress for the weather conditions and sturdy walking shoes are recommended.

**Thursday, April 27 – 6 p.m.**

**Honey Run Waterfall Park**

**10865 Hazel Dell Rd. Howard 43028**

Join Volunteers Janet Chandler and Miriam Dean-Otting for another leisurely woods walk at the falls, to the Kokosing River and return. It has been almost two weeks since the first wildflower walk, some flowers observed on April 15 will be on their way out, and others will just be, coming into bloom. This is commonly referred to as the “wildflower parade” as it is an ever-changing show! Dress for the weather conditions and sturdy walking shoes are recommended.
